The purpose of this meeting is to discuss changing the Region 11 band plan for 4.9 GHz, and provide an update on the actions of the Statewide Communications Interoperability Plan (SCIP) group.

To facilitate neighboring county participation, the meetings will be broadcast to the State-owned Video Conference Centers (VCCs), which will be available on each meeting day until 12:00 noon at the following locations:

- Hawaii: Hilo State Office Building, Basement, 75 Aupuni Street, Hilo
- Maui: Wailuku Judiciary Building, First Floor, 2145 Main Street, Wailuku
- Oahu: Kalanimoku Building, Room B-10, 1151 Punchbowl Street, Honolulu
- Kauai: Lihue State Office Building, Basement, 3060 Eiwa Street, Lihue

The Region 11 700 MHz Public Safety Regional Planning Committee meeting is open to the public. All eligible public safety providers whose sole or principal purpose is to protect the safety of life, health, or property in Region 11 may utilize these frequencies. It is essential that public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission's rules, be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz band within Region 11 should plan to attend. For further information, please contact:
